

The Fearsome Dragon of Cleeve Prior

Once upon a time there was a dragon. The dragon was breathing fire all over the village. Everyone was cross and upset. The villagers had a meeting to talk about the dragon. They decided to call Bendy Britney who lived in the next village, to see if she could stop the dragon breathing fire all over their village.

Bendy Britney was very nice and kind. She could do flips in the air and Bendy Britney went round saving people.

When the dragon went back to his cave he went to sleep and Bendy Britney went to the place where the dragon lived. Britney saw a tree and climbed up. Britney wanted to know what the dragon did when it woke up.

Suddenly the dragon woke up. Britney tried to hide in the tree so the dragon could not see her. When the dragon was not looking Britney just jumped down from the tree and started to fight the dragon, it was really hard.

Then she got out her knife out of her pocket and when he turned round she stabbed him on the back. Suddenly the dragon stopped fighting and it flopped to the ground, he was dead.

The next day every body was saying □Thank you for killing the dragon.□ So the villagers said, □We are going to give Bendy Britney a reward for killing the dragon.□ That day she got her reward for killing the dragon and she was really happy.

The End
