

Traffic	Total
Lorry	0
Bus	2
Van	6
Car	43
Motorbikes	0
Walkers	4

I found out that the most common vehicle is a car and the least common vehicles are lorries and motorbikes.

I am not surprised that the most common vehicle is a car because i live in a large village with lots of houses and people would be coming back from work.

The road is safe to cross and walk beside because the footpaths are wide to walk on and the crossings are good.

The road can be improved if people drove on it slower and it was better lit at night.
