

North Littleton Traffic Survey

Traffic	Number
cars	8
walking	5
lorry	0
bus	0
van	1
bike	0
motor bike	2

It looks like cars are the most popular vehicles and lorries, buses and bikes are the least common vehicles. I think this is quite normal for cars to be the most common, but not that many vehicles go through North Littleton anyway. The road is quite safe by my house and easy to cross because it is not that busy. I would improve the road by repairing the pot holes!
